SUMMARY

AWS Certified Java Developer with hands-on experience building **production-grade Spring Boot microservices**. Architected CloudSentry — an AI-powered DevOps observability platform with **Kafka streaming, Redis caching, and role-based dashboards**. Strong in **Java 17, Spring Security, JPA/Hibernate, REST APIs**, and **event-driven architecture**. Founded a consultancy delivering **6 client projects** with **100% satisfaction**.

EXPERIENCE

Founder | CodeWINtage *Software Consultancy, Bengaluru, India* Live

- Founded and operated consultancy delivering **customized software solutions** for clients
- Delivered **6 client projects** end-to-end: requirements, development, documentation, deployment, support
- Achieved **100% client satisfaction** with repeat referrals through quality delivery

TECHNICAL SKILLS

- **Languages:** Java 17, Python, TypeScript, SQL
- **Java Ecosystem:** Spring Boot 3, Spring Security, Spring Data JPA, Spring Cloud, Hibernate, Maven
- **Messaging & Cache:** Apache Kafka, Redis, Celery
- **Databases:** PostgreSQL, MySQL, SQLite, Query Optimization, Indexing
- **Cloud & DevOps:** AWS (EC2, S3, IAM, Cost Explorer), Docker, Docker Compose, CI/CD, Git, Vercel, Cloudinary
- **APIs & Tools:** REST APIs, JWT/OAuth2, Swagger/OpenAPI, JUnit 5, Testcontainers, Micrometer

PROJECTS

ParcelPulse | Verified Advertising & Tracking Platform on Delivery Packages Live | Demo Video | GitHub

Spring Boot 3.3 · REST APIs · PostgreSQL · Cloudinary · React 19 · Vercel

- Engineered a **full-stack ad-tech and logistics platform** turning delivery packages into measurable, verifiable advertising inventory
- Architected a **3-layer verification pipeline** combining photographic evidence hashing, GPS coordinates, and timestamp consistency checks to audit physical ad placement across the delivery lifecycle
- Built **multi-role portals**: Advertisers (campaigns, budgets, real-time ROI/reach analytics), Field Agents (sticker batch distribution), Delivery Riders (photo & GPS proof, rewards, milestones), Admins
- Developed an **automated fraud detection engine** with a manual audit queue for Admins

CloudSentry | AI-Powered DevOps Incident & Cost Optimization Platform Live | GitHub

Java 17 · Spring Boot 3.2 · Spring Security · PostgreSQL · Apache Kafka · Redis · AWS SDK · Docker

- Architected **production-grade observability platform** combining features of Datadog + PagerDuty + AWS Cost Explorer
- Built **real-time metrics ingestion** via Kafka streams tracking CPU, memory, latency, and error rates
- Implemented **anomaly detection engine** with statistical + rule-based analysis and predictive insights
- Developed **automated incident management** with intelligent severity calculation and lifecycle tracking
- Engineered **AI Root Cause Analysis** module using configurable rule engine with optional LLM integration
- Built **cloud cost analyzer** with AWS SDK v2 for cost tracking, utilization monitoring, and optimization recommendations
- Designed **multi-channel notification engine** (Email, Slack, Webhook) with deduplication and escalation policies
- Implemented **JWT authentication + RBAC** with role-based dashboards for Admin, SRE, Developer, and Manager
- Used Spring Data JPA, Redis caching, and Kafka consumers with Docker Compose for infrastructure

Placement Management System Live | GitHub

Django 5 · Python · Bootstrap 5 · SQLite · Render

- Built a **campus recruitment platform** with Student, Company, and TPO portals, eliminating **70% manual work**
- Implemented **role-based access** with a custom user model, plus job posting with TPO approval before listings go live
- Developed **eligibility-based job matching** (CGPA, branch, backlogs) with one-click applications and status tracking
- Added **interview scheduling**, analytics dashboards, CSV report export, bulk CSV upload, and audit logging for admins

PlatePal | Full-Stack Food Ordering Platform GitHub

Django REST Framework · React · TypeScript · PostgreSQL · Redis · JWT · WebSockets

- Built **Zomato-like platform** with interfaces for customers, restaurants, delivery partners, and admins
- Implemented **real-time order tracking** via WebSockets and mock payment integration
- Developed **role-based dashboards** with order management and analytics for each user type

ACHIEVEMENTS

- **Runner-Up, BITOTSAV Coding Competition** — Shri Medha College, Ballari. Recognized for problem-solving skills and competitive programming performance
- **Organizer & Lead Coordinator, TECHIZEN-2K25 Hackathon** — Bangalore University. Planned and executed university-level hackathon, coordinating participants, mentors, and logistics

EDUCATION

MCA | Bangalore University *2024 – 2025*
BCA | VSK University *2021 – 2023*

CERTIFICATION

AWS Certified Cloud Practitioner (CLF-C02) | Amazon Web Services
